NEW AT RAMIRENT TELEHANDLER JCB 540-180 HIVIZ

The new 18 meter telehandler loader from JCB is designed for great flexibility, uptime and a good ergonomic design. It has a lifting force of 4000 kg and a lift height of 18 meters. With this model, JCB has put even greater focus on safety. The Ramirent's model is equipped with a total of 5 cameras and an extremely good view. Accessories include 1000 kg crew basket and hydraulic pallets. And environmentally, it meets the requirements for Stage IV / Tier 4 Final and there is no use of particle files.
